

FOR IMMEDIATE RELEASE ON OCTOBER 7, 2024

Flamma Announces New General Manager in Italy

Chignolo D'Isola, Bergamo, Italy – October 7, 2024 – The **Flamma Group** (“Flamma”), a global, fully integrated company producing and commercializing small molecule Active Pharmaceutical Ingredients (APIs) for the life science industry, in order to effectively support and consolidate its remarkable growth, proudly announces the appointment of Giorgio Bertolini as the new General Manager for Italy.

Giorgio will report directly to the Flamma's CEO, Gian Paolo Negrisoli. As General Manager Italy, he will be responsible for the objectives and the economic results of Flamma's three Italian sites. He will coordinate and harmonize the operational and management activities across the three sites ensuring that all their activities are aligned with the management's long term strategic vision and the company values

Along with a degree in chemistry, Giorgio has more than 30 years of experience where he has held significant roles with other CDMOs within the pharmaceutical industry. Giorgio brings a deep knowledge of our business, extensive experience and broad vision. We are confident that he will add significant value within the Flamma Group.

Giorgio notes “I am truly honored to join Flamma, a company renowned for its rapid expansion in reaction capabilities, advanced technological platforms, and growing international presence. I'm stepping onto a train that's already in motion, but I'm fully committed to driving further growth and ensuring that we continue to deliver products and projects to our customers on time and in full.”

Gian Paolo Negrisoli, Flamma CEO, commented “As Flamma continues to grow, we will continue to be proactive in order to bring value to our customers. We are confident that Giorgio will use his experience to help Flamma achieve the goals we have in place. We are excited for the future and know that Giorgio will be instrumental in our continued growth and success.”

About Flamma:

FLAMMA is a family owned & run, fully integrated CDMO based in Bergamo (near Milan in Northern Italy) established in 1950.

FLAMMA is a company specialized in the cGMP manufacture of small molecule APIs, NCEs, RSMs, and advanced intermediates for the pharmaceutical industry. Flamma has particular expertise in high value chiral materials specifically amino acid related materials. Flamma also manufactures specialty compounds and advanced intermediates for the nutraceutical and cosmetic industries and has several generic products.

FLAMMA has five manufacturing facilities- Italy (3), China, and the USA. The cGMP Italian locations (Chignolo, Isso and Bulciago) are regularly inspected by the FDA and AIFA. Flamma Honkai, located in Dalian, China, is a cGMP manufacturing facility that has been inspected by Chinese National Medical Products Administration (NMPA) formally known as the Chinese FDA. Flamma provides security when working in China with our 100% owned, self-managed facilities that deliver results without worry. Flamma reliably supplies materials directly to customers and/or delivers materials to its cGMP facilities in Italy in order to deliver the customer's compound on-time and with the desired specifications. Flamma offers cost-effective services to customers looking for a trusted partner within China.

Flamma USA (Malvern, PA near Philadelphia) services customers looking to keep their pre-clinical/early stage clinical small molecule drug development in the USA. Flamma USA also offers the ability to handle HPAPIs as well as low volume commercial materials.

As a fully integrated company, Flamma can move customer compounds quickly along their journey by taking into consideration all aspects necessary for the success of customer's projects while providing supply chain security.

Flamma can be of assistance for early stage pre-clinical development of small molecules as well as for large-scale commercial manufacturing. With a total reactor capacity of 1,100 m³ and over 850 employees, see why Flamma should be your next contract manufacturer.
